1 to 5 Metric Tons in 25 KG Drums List Price Subject To Possible Discount	\$13.27	6.03	\$13,270 to \$66,350
5 or more Metric Tons in 25 KG Drums, 40 Day Delivery List Price Subject To Possible Discount	\$13.05	5.93	
If delivered in California and no resale license for California, add 8 1/4%.			

Notes On Price Changes	
<p>We have decided to record all changes in any of the prices as to the date and type of change.</p> <p><u>Click Here</u> to review past news announcements on our Archive Page.</p> <p>This is more openness than you will find in very many other suppliers of any product.</p>	
Effective Date	Description
April 21, 1999	<p>Prices on 10 KG or less are increased</p> <p>Price on 25 KG is decreased 10% from previous price</p>
April 8, 1999	<p>A temporary 10% reduction in price for 100 KG or more is now made permanent -- as above. The temporary 10% reduction is no longer in force since the price reduction was made standard.</p>
	If ANYONE purchases 100 KG, or more, at one time, they will then have

February 20, 1999	permanently qualified for the price of that purchase volume. Any future purchases of 10 KG or more will be priced, for them, at the lower price to which they are entitled.
January 6, 1999	In view of our getting a very valid quote from a large manufacturer we have decided to lower the price for 500 KG to a new low price of \$15 per KG (from \$17). Larger quantities were also reduced in price. Lower prices depend on either larger quantities or firm annual delivery contract. We also lowered the price on 100 KG to \$17 per KG (from \$18) to keep it in line with the 500 KG price.
January 11, 1999	Shipments may now be made to your location from either the factory (India) or from our inventory in Los Angeles. B&B now has a shipping agent that can arrange any shipments, anywhere in the world, either from India direct, or from our inventory in Los Angeles. There is a \$50 flat charge, in addition to actual freight costs, for any shipment which goes direct from India to your location, whether your location is in or out of the US.
January 11, 1999	<p>Prices Worldwide!</p> <p>The above prices are now established as worldwide! That is, the above prices can be applied as ex works, India, and also as ex warehouse, Los Angeles. Free shipping does not apply to shipments ex works, but continues to apply on 100 KG shipments from the Los Angeles warehouse, within the US only. Credit is offered, presently, only within the US. Payment terms outside the US are standard LC, etc.</p>
March 10, 1999	<p>Well We Sometimes Make Mistakes!</p> <p>When we tried to figure out how much of our first shipment should be in one-kilogram bags and how much in 25-KG bags, I think, now, we made a mistake. We are selling lots of one-KG bags. We MUST sell tons to make our business successful. I think it will come! But, I think we will run out of one-KG bags before the boat comes in! (We have another ton on the ocean right now!) We have only sold a few of our 25-KG drums (25 KG in one bag).</p> <p>SO!</p> <p>I'm announcing a temporary, one-time discount of 10% on all MSM purchases of 25 KG in a drum. If you can use 25 KG, in one bag, this is a good deal. This offer will continue only until we get the next ocean shipment in (probably about April 20th). That shipment contains a larger proportion of one-KG bags. The 25-KG bag now sells at \$19 per KG. There is now a temporary discount of 10%, making the 25 KG drum \$17.10 per KG until the boat comes in. All larger quantities are also discounted 10%, until the boat comes in. Do NOT expect this discount to continue past the arrival of our next shipment.</p>

The prices are shown as our current expectation; however, we have reserved the right to change prices without notice. You may get a firm quotation good for a stated period, upon request.
